\*ARD - Asbestos-related Disease; GBD Study - Global Burden of Disease Study; Rate - Rate per 100,000 population.

Data on which this table is based were downloaded on October 8-10, 2017 from the [Results page of the University of Washington IHME website](#). The figures in the "Non-Occup. Mesothelioma" column were obtained by subtracting occupational mesothelioma mortality rates from overall (GBD Study estimated) mesothelioma mortality rates.
